

PH NEUTRALIZER

NEUTRALIZING AGENT & ACID STAIN ENHANCER TECHNICAL DATA & APPLICATION INSTRUCTION

PRODUCT DESCRIPTION

pH Neutralizer is a superior blend of neutralizing agents and specialty additives which create a multi-purpose solution. **pH Neutralizer** neutralizes residues left from acid based stains and other acid based products used on concrete for cleaning and preparing purposes, such as muriatic acid and *Kingdom Products' Majestic Surf Prep*. A concrete surface with a neutral pH is required for pretty much all coatings to properly adhere to the substrate. **pH Neutralizer** does neutralize the surface, but also contains a special additive which not only results in excellent coating adhesion, but enhances acid stain applications.

BENEFITS/FEATURES

- Delightful cherry scent
- Ready to use formula - no mixing
- No VOC content
- Neutralizes the surface of a concrete floor to the proper pH level for proper coating adhesion.
- Economically enhances the look of an acid stain floor.

RECOMMENDED APPLICATIONS

- Recommended for interior and exterior concrete where acid based products have been used and a neutral surface before coating the substrate.

INSTRUCTIONS FOR USE

Substrate temperature must be no less than 40°F and 80°F. Apply this product using a sprayer and/or mop. Apply undiluted **pH Neutralizer** at a rate of **150 - 200 sq ft per gallon** to ensure proper pH neutralization. This product should be used in place of the first application of clean-up water when acid based cleaners, prep products or acid based stains are used. When using to neutralize acid based stains, it is recommended to mop it on to help release excessive residues left behind. Allow surface to dry for 18-24 hours prior to applying any coatings (Refer to coating technical data for proper application timing.)

SHELF LIFE & PACKAGING

pH Neutralizer has a shelf life of up to one year from manufacture date in its original, unopened container stored at room temperature. Ph Neutralizer is available in 1 gallon containers. It is also available in 5 gallon & 55 gallon drums by special order.

CLEAN-UP

Use soap and water. Dispose of containers in accordance with local, state and federal regulations.

PRECAUTIONS AND LIMITATIONS

- This product will freeze during storage. Store at temperatures above 40°F.
- This product is harmful if swallowed. Abide by recommended safety guidelines.
- This product is biodegradable, environmentally safe product that contains no VOC's.
- This product should not be diluted. Diluting this product can reduce the neutralization properties dramatically.

SPECIAL NOTES

Please consult Material Safety Data Sheet (MSDS) and read Warranty information prior to use.
