Whitewash

Our Olde World Stains are waterbased, non-toxic, concentrated stains that are easy to use and very effective coloring agents for decorative concrete. Olde World Stains are an excellent choice for floors, vertical, carved concrete, concrete countertops, concrete block, stucco and most any concrete surface. The environmentally friendly, penetrating colors can be applied in a variety of ways. The colorfast iron oxide pigments provide a palette of natural, semi-transparent hues that can be layered to create almost any color finish desired.

Olde World Stain concentrate is packaged in (1) one quart bottles. Dilute with (3) three quarts water to make (1) one gallon of prepared stain. One gallon of prepared stain will cover 250 - 300 square feet\*.

Olde World Stain is also available in 8 oz, ready-to-use sample sizes, that do not need to be diluted. These cover 15-18 sq ft\*.

*\*Coverage rates are approximate and can vary significantly depending upon the surface porosity as well as the application method.*
